

AAC 100 SERIES

DESIGN BY HEE WELLING & HAY

HAY

AAC 100 SERIES

The AAC 100 series is a continuation of the long-term collaboration between HAY and designer Hee Welling. Whilst retaining the fundamental idea shared by the AAC family, the 100 series is actually very different to its predecessors.

AAC 100 was developed to accommodate the changing landscape of our work environment and to meet a growing need for greater comfort in the workspace, where there has been a visible shift from traditional desk seating to more welcoming and flexible seating solutions. Inspired by the ample, sculpted curves of the About a Lounge, the AAC 100 series features a high backrest and generous seat that combines inviting aesthetics with a high level of comfort.

The AAC 100 series comprises variants with different quilting types, upholstery options, and interchangeable base types, making it a versatile and functional collection suited to a wide variety of domestic, office, and public settings.

HEE WELLING

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA) and has been nominated as the Danish designer of the year in both 2013 and 2014. Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centred around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a great sense of proportion and quietly elegant looks. For HAY, Welling has designed the About A Collection and the Hee Chair, Lounge Chair and Bar Stool.

A minimalist interior scene featuring four modern armchairs. The chairs are arranged in a semi-circle on a light-colored floor. The background consists of a plain white wall and a white staircase with wide steps. The lighting is soft and even, highlighting the textures of the chairs. The text 'AAC 127' is overlaid in the center of the image.

The image shows three modern office chairs in a room with marble walls and a large window. The chairs are arranged in a semi-circle. The central chair is upholstered in a grey fabric and has a black four-legged base. To its left is a chair with a light beige fabric seat and a chrome four-legged base. To its right is a chair with a light pink fabric seat and a black four-legged base. A large white pillar is in the foreground on the right. The background features a wall of grey and white marble tiles and a large window with a wooden frame. The floor is a light-colored, polished material.
