

## MG501 | CUBA CHAIR – Design: Morten Gøttler

---

---

### DESCRIPTION

- The MG501 - also known as the Cuba chair - is a light and flexible folding chair suitable for the modern apartment, living room, open kitchen or similar.
- It is the perfect add-on chair when more seating is suddenly required.
- The chair can easily be stored by either hanging on a wall or by being placed in a stand on the floor.
- The girths which form the seat and back of the chair provides great support and comfort as it gently follows the lines of the body.
- The chair is built upon a solid wood frame, with girths weaved around the frame.
- The frame is always made in solid oak wood.
- The customer can choose between nature, white and black girths.

---

### HISTORY

- Designed by Morten Gøttler in 1997.

---

### THE DESIGNER

**Morten Gøttler**, born in 1944, is a renowned Danish furniture designer MDD, with a true feeling for wood. His style has its roots in modern Scandinavian design tradition with a focus on a simple and light look.

His products are characterized by such keywords as close attention to detail, quality materials and exquisite comfort.

### VARIANTS CHOICES AND DIMENSIONS

## MATERIAL MATRIX

	Soap	Lacquer	Black paint	White oil	Oil
Oak	●	●	●	●	●

Oak and ash have a clearly visible wood structure when painted. Beech has minimal structure when painted. Oak is available only in black (NCS S9000-N).

---

## ENVIRONMENTAL INFORMATION

Carl Hansen & Søn and sustainability

People's fascination of the combination of good design and wood, as well as other natural materials, is something that transcends time and fashion. At Carl Hansen & Søn, we believe that this fascination helps to explain the great interest in our furniture, and we take very seriously concerns about the sustainability of the natural resources upon which we depend for our products. That is why we strive every day to improve our production methods, logistics and sales efforts in respect of scarce natural resources.

We buy wood only from sustainably managed forests. All sourced wood meets EUTR 2013 regulations, Danish Forest Legislation and current international certifications. Oak, beech and ash come primarily from Danish forests which are managed according to the principles described in Denmark's National Forest Programme; some of these wood types are also sourced from other similarly managed European forests, or, in the case of walnut and cherry, North American forests.

We use every possible bit of these fine hardwoods in our furniture production. Inevitably, however, there are some scraps, which are then used to produce other products or recycled in district heating plants.

---

## TESTS AND CERTIFICATIONS

All tests and certificates are available on request.
